*Surgeon*—H. L. JAMES, M.D., M.S.
*Physician*—C. C. TUDGE, M.B., B.S.

W. HALL, *Clerk to the Committee.*

# SURREY COUNTY MENTAL HOSPITALS.

## Annual Report of the Visiting Committee

(Pursuant to the Lunacy Act, 1890, Sec. 190).

*Presented to the County Council at their meeting held on the 11th day of November, 1924.*

*To the County Council of Surrey.*

The Visiting Committee submit their Report for the year ended 31st December, 1923, together with the audited accounts to the 31st March, 1924.

At the meeting on the 18th May, Col. the Hon. A. G. Brodrick, A.D.C., was re-appointed Chairman of the Committee, and Mr. E. A. Medus was re-elected Vice-Chairman.

Six meetings of the Committee and 55 meetings of the Standing Sub-Committees were held during the year. In addition meetings of special Sub-Committees were held, and frequent inspections of the buildings and grounds of the two Mental Hospitals were carried out in accordance with the provisions of the Statute.

The normal accommodation in the two Hospitals is as follows:—

| *Brookwood.* | *Netherne.* | *Total.* |
|---|---|---|
| 1,393 Beds. | 980 Beds. | 2,373 Beds. |

which appears to be sufficient for ordinary requirements.

On the 1st January, 1924, there were 42 patients adjudged chargeable to out-County Unions, 96 Private Patients, 106 Service Patients, and 119 Patients received from other Mental Hospitals under contract. The total number of patients in the two Hospitals was 2,267, leaving a margin of 106 vacant beds.

The following tables show the numerical changes in the patients at both Hospitals during the year:—

## BROOKWOOD MENTAL HOSPITAL.

| Remaining Dec. 31, 1922. | | Since admitted. | | Discharged recovered. | | Removed, etc. | | Died. | | Remaining, Dec. 31, 1923. | |
|---|---|---|---|---|---|---|---|---|---|---|---|
| M. | F. | M. | F. | M. | F. | M. | F. | M. | F. | M. | F. |
| 558 | 834 | 112 | 183 | 24 | 49 | 108 | 90 | 38 | 53 | 500 | 825 |
| 1392 | | 295 | | 73 | | 198 | | 91 | | 1325 | |

## NETHERNE MENTAL HOSPITAL.

| Remaining Dec. 31, 1922. | | Since admitted. | | Discharged recovered. | | Removed, etc. | | Died. | | Remaining, Dec. 31, 1923. | |
|---|---|---|---|---|---|---|---|---|---|---|---|
| M. | F. | M. | F. | M. | F. | M. | F. | M. | F. | M. | F |
| 388 | 552 | 234 | 110 | 19 | 43 | 171 | 44 | 40 | 28 | 392 | 547 |
| 940 | | 344 | | 62 | | 215 | | 68 | | 939 | |

The following table shows the number of deaths occurring at the Mental Hospitals during the past two years as compared with the average number of patients in residence:—

| | 1922. | | 1923. | |
|---|---|---|---|---|
| | No. of Deaths. | Percentage of average No. of Patients. | No. of Deaths. | Percentage of average No. of Patients. |
| Brookwood ... | 95 | 6·96 | 91 | 6·86 |
| Netherne ... | 77 | 8·22 | 68 | 7·26 |

The total number of recovered cases was 135, as compared with 133 in 1922.

The buildings and machinery and other contents have been maintained in an efficient state of repair and the following works have been carried out, the cost of the same being debited against the Excess of Weekly Charge Fund Account.

| | | £ | s. | d. |
|---|---|---|---|---|
| *Brookwood*— | New washing machine ... ... | 184 | 7 | 7 |
| | New collar ironer ... ... ... | 76 | 5 | 6 |
| | Repairs to main drives ... ... | 1,526 | 14 | 4 |
| | New mess-room scullery ... ... | 132 | 9 | 8 |
| | Repairs to Gas Works roof ... | 103 | 14 | 3 |
| | Baths at North and West lodges... | 102 | 0 | 9 |
| | New boiling pans ... ... ... | 494 | 0 | 8 |
| *Netherne* — | Repairs to roads and paths ... | 354 | 2 | 9 |
| | Radiator guards ... ... ... | 74 | 2 | 3 |
| | New hard tennis court ... ... | 400 | 10 | 10 |
| | New potato peeling machine ... | 91 | 8 | 0 |
| | Farm implement shed ... ... | 111 | 4 | 1 |

The following items of expenditure need no comment:—

| | *Brookwood.* | | | *Netherne.* | | |
|---|---|---|---|---|---|---|
| | £ | s. | d. | £ | s. | d. |
| Ordinary repairs ... ... | 5,307 | 9 | 2 | 4,409 | 19 | 11 |
| Alterations, additions and improvements under £400 ... | 13 | 19 | 7 | — | | |
| New buildings (voted by County Council) ... ... ... | 4,379 | 17 | 8 | 3,400 | 0 | 0 |
| Other payments in connection with buildings and repairs, most of which are on Capital Account ... ... ... | 3,783 | 0 | 3 | 1,619 | 0 | 7 |

The Farm and Garden Accounts show that the profit, excluding value of patient labour, was £1,862 6s. 0d. at Brookwood, and £314 4s. 7d. at Netherne.

Commissioners of the Board of Control have visited both Mental Hospitals during the year and left satisfactory reports.

Members from the various Boards of Guardians have also paid visits and have recorded in the Visiting Book their appreciation of the treatment of the patients.

Six pairs of cottages for accommodation by married members of the staff have been erected during the year at each Mental Hospital, the total cost of the same being met out of the cash balances in the hands of the Visiting Committee.

Your Committee considered applications from 16 Asylum Pensioners for the continuance and re-assessment of increase of pension granted under the provisions of the Pensions (Increase) Act, 1920. A reduction of 5 per cent. was made in nine cases, and in the remaining seven no alteration was made.

The undermentioned gentlemen were appointed to act as Visiting Specialists at Brookwood and each was granted an honorarium of twenty guineas per annum to cover all expenses:—

Visiting Physician — W. J. Adie, Esq., M.D., M.R.C.P., Charing Cross Hospital.

Visiting Surgeon—L. G. Higgins, Esq., M.B., F.R.C.S., Woking.

Miss C. C. D. Cheshire resigned her appointment as Matron at Brookwood on the 30th April, 1923, after twenty-nine years' service, and Miss M. A. Tomkins (Assistant

Matron) was appointed to fill the vacancy. The Minister of Health consented to the addition of one year to the period of Miss Cheshire's service for the purpose of computing the amount of superannuation allowance to be awarded to her.

The Minister of Labour issued a renewed Certificate under Part II. (d) of the First Schedule to the Unemployment Insurance Act, 1920 (as amended), excepting from the provisions of that Act those permanent employees at the two Mental Hospitals liable to be insured who had completed or may hereafter complete three years' permanent service and in respect of whom contributions are payable under the Asylums Officers' Superannuation Act, 1909. The Certificate will cease to have effect on and after the 4th July, 1927.

The Committee have adopted certain regulations for the purpose of bringing pressure to bear on attendants and nurses to qualify for the Certificate of the Medico-Psychological Association.

During the past year the Minister of Agriculture has issued Orders for the redemption of tithe rent charge on part of the Brookwood Mental Hospital Estate, the redemption being by way of annuity spread over a period of thirty years. Half-yearly instalments of the annuity are being paid out of the Hospital Maintenance Account and reclaimed from the County Council.

The rate charged to the various Boards of Guardians for the maintenance of Ordinary Patients was reduced from 21s. to 18s. 1d. per week on the 1st April, 1923, at which figure it stands at the date of this Report.

The following is a record of attendances of members for the year:—

| Name. | Visiting Committee (6 meetings). | | Sub-Committees (55 meetings). | |
|---|---|---|---|---|
| | Summoned. | Attended. | Summoned. | Attended. |
| Attlee ... ... ... ... | 1 | 1 | 5 | 5 |
| Bennett ... ... ... | 6 | 6 | 24 | 23 |

| Verran ... ... ... ... | 5 | 2 | 18 | 14 |
| Wootten ... ... ... | 6 | 4 | 25 | 19 |

The Committee desire to place on record their appreciation of the devotion shown by the Medical Superintendents, Officers and Staffs, in carrying out their respective duties during the year.

Signed on behalf of the Committee this twenty-fourth day of October, 1924.

ARTHUR BRODRICK, *Col.*

*Chairman.*

# APPENDIX I. (a).

## SOUTH-EASTERN 3.A. AUDIT DISTRICT.

ERLECOT,
CECIL ROAD,
CHEAM,
SURREY.
28*th July*, 1924.

*To the Chairman and Members of the Visiting Committee of the Brookwood Mental Hospital.*

GENTLEMEN,

I have to report that the audit of your Committee's Accounts for the year ended 31st March, 1924, was completed on the 12th instant.

The balance standing to the credit of the Maintenance Account at the end of the year under audit amounted to £61,146 11s. 5½d. as compared with £75,162 5s. 6d. at the 31st March, 1923.

The cost of maintenance was 19s. 10·827d. per head, per week, for the year ended 31st March, 1924, as against 18s. 10¾d. per head for the previous year. The charge to the various Unions was 18s. 1d. per head for the year ended the 31st March, 1924, as compared with an average cost of 24s. 2½d. per head for the previous year.

I would suggest that, where possible, the workmen's time sheets should be certified by the foreman or person in charge of the work; at present, this is done in the Engineer's Department only.

It also seems desirable that the Clerk and Steward's Establishment Account and Petty Cash Account should be submitted periodically to the Committee for their inspection.

Reference must be made to the defalcations of the late Clerk and Steward, though it is satisfactory to observe that the money was refunded and the whole matter is now closed. With regard to his failure to account for the sums of money received by him for the sale of surplus stores, it is very desirable that a Sales Book should be kept, and I understand that your Clerk and Steward proposes to do this immediately.

I am, Gentlemen,
Yours faithfully,
(Signed) G. C. SIMPSON,
*Assistant District Auditor.*

# APPENDIX I. (b).

## SOUTH EASTERN 3A AUDIT DISTRICT.

"Erlecot,"
Cecil Road,
Cheam, Surrey.
19*th August*, 1924.

*To the Visiting Committee of*
*Netherne Mental Hospital.*

Gentlemen,

I have to report that the Audit of your accounts and those of your Officers for the year ended 31st March, 1924, was completed on the 26th ultimo.

The cost per head per week for maintenance was 21/4.275d., as compared with 22/2.808d. for the previous year. The amount per head charged to the various Unions was 18/1, as compared with 27/5 and 21/- for the year ended 31st March, 1923.

The balance standing to the credit of the Maintenance Account amounted to £34,320 8s. 5d., as against £42,336 7s. 3d. at 31st March, 1923. This balance appears to be still unnecessarily high, but I understand it will be further considerably reduced by the end of the current year.

I have pleasure in referring to the very satisfactory manner in which the accounts had been kept.

I am, Gentlemen,
Yours faithfully,
(Signed) G. C. SIMPSON,
*Assistant District Auditor.*

# APPENDIX II.

*To the Visiting Committee of the Surrey County Mental Hospital, Brookwood.*

MR. CHAIRMAN AND GENTLEMEN,

I have the honour to present the Annual Report of the Medical Superintendent for the year 1923.

The numerical changes amongst the patients are as follows:—

| Remaining. Dec. 31, 1922. | | Since admitted. | | Discharged recovered. | | Removed. | | Died. | | Remaining. Dec. 31, 1923. | |
|---|---|---|---|---|---|---|---|---|---|---|---|
| M. | F. | M. | F. | M. | F. | M. | F. | M. | F. | M. | F. |
| 558 | 834 | 112 | 183 | 24 | 49 | 108 | 90 | 38 | 53 | 500 | 825 |
| 1392 | | 295 | | 73 | | 198 | | 91 | | 1325 | |

| | |
|---|---|
| Total number of cases treated ... ... ... | 1,687 |
| Average number resident ... ... ... ... | 1,326 |

There was a decrease of 73 in the admissions as compared with the previous year.

The percentage of recoveries calculated on the direct admissions was 27·7.

The death-rate calculated on the average number resident was 6·86 per cent.

The general health of the patients was good, the death-rate being slightly lower than in the previous year.

Five inquests were held:—

1. M.A.S. Death from natural causes.
2. R.E.P. Death from misadventure, sustained prior to admission.

3. J.F. Death from Senile Decay accelerated by fracture of the femur, accidentally sustained.

4. R.D. Death from Septic Peritonitis and perforation of bladder by foreign body.

5. M.A.G. Death from Strangulated Hernia accelerated by anæsthesia preparatory to operation.

Two other patients sustained fractures of bones, due to accidental falls.

Eight patients made their escape from the Hospital, in each case being brought back after a short absence.

Two members of the Board of Control visited on October 22nd and 23rd. Their report is appended.

Dr. E. Prideaux, Headquarters' Inspector, Ministry of Pensions, visited and interviewed each Service Patient on August 15th.

Deputations from the following Boards of Guardians also visited their patients:—Hambledon, Richmond, West Ham, Chertsey, Farnham, Wandsworth.

During the year renovations and repairs to the building were carried out as usual, the more important works being as follows:—

The fitting up of a new Upholsterer's Shop.

The completion of the extensions to the Printer's Shop.

The provision of Hand Basins with Hot and Cold Water supply to several Dormitories.

A Verandah for Female Tubercular Patients.

A complete range of new Boiling Pans in the Kitchen and the re-surfacing of the main Drives on the Estate.

The conduct of the Staff has been generally satisfactory; five Nurses obtained the Certificate for Nursing and eleven passed the Preliminary Examination.

Two important additions were made to the Medical Staff during the year: W. J. Adie, M.D., M.R.C.P., as Consulting Physician, and L. G. Higgins, M.B., F.R.C.S. Eng., as Consulting Surgeon.

I regret to report the resignation on Pension of the Matron, Miss C. C. D. Cheshire, after 29 years' service, and take this opportunity of placing on record her high standard of duty and her complete devotion to the interests of the Hospital.

Miss M. A. Tomkins, Assistant Matron, was promoted to the vacant position, and Miss D. L. Finnemore, of Cardiff City Mental Hospital, was appointed as Assistant Matron.

I have to thank my Medical Colleagues, the Officers and members of the Staff for their co-operation during the year, and to express my appreciation of the kindness of the Visiting Committee.

I have the honour to be,
Mr. Chairman and Gentlemen,
Your most obedient Servant,
J. A. LOWRY, M.D.,
*Medical Superintendent.*

# APPENDIX III.

## REPORT OF COMMISSIONERS OF THE BOARD OF CONTROL.

SURREY COUNTY MENTAL HOSPITAL,
BROOKWOOD.
*October 23rd*, 1923.

We have to-day completed the inspection of this institution which we commenced yesterday, and can report that it continues to be well maintained and administered for the benefit of those resident therein.

Since our colleagues' visit thirteen months ago the following numerical changes have taken place among the patients:—

| | Males. | Females. | Total. |
|---|---|---|---|
| Admitted ... ... ... ... | 143 | 188 | 331 |
| Discharged or removed ... ... | 154 | 143 | 297 |
| Of whom had recovered ... | 28 | 53 | 81 |
| Allowed out on trial ... ... | 17 | 46 | 63 |
| Of whom granted allowances ... | 6 | 7 | 13 |
| Died ... ... ... ... ... | 40 | 59 | 99 |

Of the above numbers who were discharged, 23 men and 30 women were handed over to their friends on undertakings under S. 79 of the Lunacy Act, and 84 men and 60 women represent transfers to other mental institutions.

There were, when we commenced our visit, on the statutory books the names of 498 male and 818 female patients—a total of 1,316. One man and 3 women are now out on trial, leaving 1,312 patients in residence, all of whom we believe we have seen and given an opportunity of stating any of their complaints or grievances.

The only patients of the private class are 26 male "service" patients,, whom we found receiving the privileges due to them.

Out-county patients number 9 men and 84 women; of the latter 46 are received under contract from Napsbury Mental Hospital, and 28 from the Borough of West Ham. Thirteen of the other out-county patients are chargeable to various metropolitan unions, and the remainder to provincial unions.

The weekly maintenance charge for the Home and out-county patients (other than those received under contract), 18/1 per head. The charge for the Napsbury patients is 28/-, and that for the West Ham ones 35/- per week. The reduction in the maintenance rate from what it was at the last visit, 27/5, has chiefly been affected by drawing on the large surplus that had accumulated in the maintenance fund. The actual cost of maintenance during last quarter was 20/8 per head per week.

The total accommodation in the hospital, having due regard to day and night space per patient, is for 560 men and 833 women, a total of 1,393. The average number of patients resident during the year ended 31st December last wast 549 men and 815 women. The tendency to overcrowding which was referred to in the report of our colleagues has been avoided by the termination of the contract with the London County Council, and the removal of some of the Napsbury patients. There are now vacancies for 63 patients on the male side, and 18 on the female side.

By the absence of noisiness, their general demeanour and many appreciative remarks as to efforts made on their behalf, we thought the patients seemed as a whole very contented. The few patients we saw wearing their own clothing evidently like this privilege, particularly the women who are allowed to make their own "Jumpers," etc., and we hope the practice will be extended as widely as practicable. We had several representations as to discharge, into each of which we inquired. The only complaints we had as to treatment came from an elderly woman (A.B. in Ward E, admitted 20th October, 1920). She was in bed in a single room because of her frail, restless condition. She said that about an hour or two before we visited the ward she had got out of bed to look for something, and had been pushed down, striking her head on the floor, by two nurses. Her sight is very bad and she could not recognise or name either, but in a vague, confused manner she attempted to identify the nurse accompanying us and within reach of her hand at that moment. As we found a vertical abrasion on the centre of her forehead with some developing redness around, and as nothing seemed known of the incident, we made full inquiries on the spot. We ultimately ascertained that the Head Nurse of the Block of which E. is one of the six wards, who was not with us when we commenced our inquiries, had while with a Medical Officer in a single room near by actually seen what took place, namely, that the patient being partially blind had walked into and bumped her forehead against the edge of an adjoining door, which, though fully

thrown back, protruded a few inches from the wall. The Head Nurse had herself assisted her back to bed, and asked her at the time if she had not hurt her forehead; the nurse whom the patient attempted to identify was in point of fact also with the doctor at the time, and the appearance of the abrasion exactly tallied with the edge of a door having caused it; and we left completely satisfied as to the entirely accidental nature of the occurrence.

From our examination of the dietary scales for both patients and staff, from the observations during meal time yesterday and to-day, and from the inquiries we made in the kitchens, butcher's shop and stores, we are well satisfied with the results of the careful attention that has been given here to the very important matter of dietary, and monotony in breakfasts and teas has been largely abolished. Improvements, too, have been effected in the dietary of the staff. Except for the fact that yesterday the second course seemed served too hurriedly and before the first had been finished, the meals were well and nicely served; we had a few comments as to the absence of fish, the future supply of which we understand is now under consideration.

With the exception of the evening of the weekly entertainment—at which we should like to see a higher attendance than indicated by the annual returns—no supper or ration is given between tea at 5.30 p.m. and breakfast next morning, nor are there any "sitting-up" arrangements after 7 or 7.30 p.m. for patients of the able-bodied, trustworthy and industrious class. The institution of this practice, coupled with the issue of a light supper ration to such patients, would, we believe, be greatly appreciated, would be regarded as a welcome reward for industry and good behaviour, and would stimulate other patients to do likewise. No one has parole beyond the Hospital grounds, but within them we are glad to see that 44 men have this privilege, and doubtless this wise practice and the proportion (8 per cent. of the men) will be extended as time goes on. The absence of detached Villas for this class of patient, we know, is a handicap; but, if at all practicable, we should like to see at least one ward on each side run on the open-door principle, affording all its occupants during the day-time egress to the ward-garden and preferably to the grounds as well: one is partially already run on the female side.

The paramount need, however, at this institution is, in our opinion, better, and more modern arrangements for the admission, study, and treatment of new patients well separated from old and

protracted cases, with an auxiliary small Villa on each side for convalescing cases. Commendable effort continues to be made in what is wanted in this direction out of the existing structure; but, besides the absence of other desiderate, the type of single room used for the bed treatment of new admission in the receiving wards (No. 1 on each side), the absence of clinical rooms, and the unavoidable mixture in the ward-gardens of new with so many cases of long duration and confirmed insane habits, are so severe a handicap to modern medical requirements that, as did our colleagues, we would express the hope that, when the accommodation provided between the two County Mental Hospitals for Surrey needs to be augmented, the earliest step will be the provision at Brookwood of an Admission Hospital on modern lines, small villas for convalescents and somewhat larger ones for trustworthy patients; while the cost of the hospital unit cannot be light, none of the villas need be otherwise than simple and inexpensive.

The same opportunity, we trust, would also be taken—if in the meantime no existing rooms are available for adaptation—to provide an Operating Room and Clinical Laboratory. Work requiring laboratory investigation is by no means neglected here and material is regularly sent to the Virol Institute; but for adequately routine investigation, this can never really take the place of work done in the Hospital's own laboratory by either one of the resident Medical Staff or a part-time Visiting Pathologist, and with the help of a technical assistant.

Accidents and casualties have been few (seven in all) and call for but little comment. A fall from a hayrick caused a disclocated shoulder and is an example of risks properly taken to secure occupation of patients. The cause of a fractured leg could not be ascertained but was believed to be spontaneous, due to the condition of the bone. A fractured thigh, accidentally sustained, accelerated death, and was the subject of one of the six inquests that have been held; one of them was upon a woman who died under anæsthesia in the course of an imperative operation; and another was upon a woman who had fractured her spine before admission; a fourth was upon another woman whose death was due to sepsis following upon a hair-pin getting into the bladder.

Apart from the foregoing four cases, all the 40 male and 59 female deaths were due to natural causes, verified by post-mortem examinations in 42 per cent. of these cases. We hope that every reasonable efforts will be made to teach friends of deceased patients

the protective as well as scientific value of these examinations, and so gradually to increase this proportion. Senile decay was the principal cause in no less than 36 per cent. of these deaths, a fact which—coupled with the mild nature of some of the senile patients to whose cases we obtained information—invites inquiry whether a number of senile cases in whom acute symptoms have passed away might not be sent to their appropriate Poor Law Institution, or perhaps home under S. 79 or 57 of the Lunacy Act.

The patients in bed were some 37 on the male and 64 on the female side—that is 7·6 per cent. of the total in residence. None had a bedsore, and all, we are sure, are in receipt of due care and attention. We thought that a supply of small bed-tables for those unable to use the existing ones of large type would be a boon to several patients, and were glad to hear that the stretcher beds—too narrow, we think, for longer than temporary use—will shortly be replaced by beds of hospital pattern.

There has been very little of infective disorders: none among the staff; a few cases of influenza at the end of last and beginning of this year; one case of dysentery on each side; and, besides 6 male and 8 female deaths from tuberculosis, there are at present 13 men and 27 women known to be suffering from tuberculosis, as to whose segregation good care is taken.

There has been no mechanical restraint or seclusion employed since the last visit.

The fabric of the institution is well maintained, and several alterations and improvements have been completed during the year.

Among them may be mentioned the Verandah at F. 10, E Ward, and a kitchen in the same ward, and the re-arrangement of the Printer's, Shoemaker's, and Tailor's Shops.

The day-rooms, galleries, side rooms and dormitories were clean and tidy and well supplied with plants, books, papers, etc.; the beds and bedding were neatly arranged and were clean.

The nursing staff is substantially the same numerically as mentioned by our colleagues last year. We were surprised to learn that, notwithstanding the size of this institution, there is no night officer on either side. We hope that consideration will be given to this matter, and would suggest that, in view of the many less male than female patients, perhaps one female officer, if thoroughly competent and well-trained, might suffice for the supervision by night of both sides.

Dr. Lowry has to assist him, as medical colleagues, Dr. Brooks Keith as Deputy Superintendent and two other resident medical officers, one of whom is on a temporary footing. Besides the Dentist, who visits fortnightly, the Committee have just appointed a Visiting Physician (Dr. Adie) and a Visiting Surgeon (Mr. Higgins), besides whom an ophthalmic surgeon also visits. This is all to the good and we are very glad to hear about it. Indeed, this spirit of progress tempts us to suggest that, conversely, the special experience in mental disorders of the Medical Staff here might well and wisely in the county's interest be made use of, for instance, in the out-patient department of one or more of the general hospitals within the county. The prompt treatment of incipient mental illness at such centres would probably cut short many an attack, and, besides its humanitarian aspect, would then save the expense of ultimate institutional treatment for such cases.

B. T. HODGSON,
C. HUBERT BOND,
*Commissioners of the Board of Control.*

# APPENDIX IV.

Netherne Mental Hospital,
Coulsdon, Surrey.
*March* 31*st*, 1924.

Mr. Chairman, Madam and Gentlemen,

I have the honour to present the 15th Annual Report of the Medical Superintendent, together with the Statistical Tables for the year 1923. Below is a summary of the numerical changes that have taken place amongst the patients:—

| | *M.* | *F.* | *Total.* |
|---|---|---|---|
| In the Mental Hospital on December 31st, 1922:— | | | |
| Rate supported ... ... ... ... | 296 | 493 | 789 |
| Private ... ... ... ... ... | 30 | 59 | 89 |
| Service ... ... ... ... ... | 62 | — | 62 |
| Admitted during 1923 ... ... ... | 234 | 110 | 344 |
| Total number under treatment ... ... | 622 | 662 | 1,284 |
| Discharged during 1923:— | | | |
| Recovered ... ... ... ... | 19 | 43 | 62 |
| Relieved .. ... ... ... ... | 29 | 29 | 58 |
| Not improved ... ... ... ... | 141 | 15 | 156 |
| Not insane ... ... ... ... | 1 | — | 1 |
| Died ... ... ... ... ... | 40 | 28 | 68 |
| Remaining in the Mental Hospital on December 31st, 1923:— | | | |
| Rate supported ... ... ... ... | 280 | 485 | 765 |
| Private ... ... ... ... ... | 34 | 62 | 96 |
| Service ... ... ... ... ... | 78 | — | 78 |
| Total ... ... ... ... ... | 392 | 547 | 939 |
| Average number resident ... ... | 385 | 551 | 936 |

*The Admissions.*—There were 344 admissions during the year, or 5 more than in 1922. Of these, 152 men and 93 women, giving a total of 245, were direct admissions. Of the male admissions, 69 or 45 per cent. were ex-soldiers from the Ministry of Pensions Hospital, Ewell. The chief ascertained factors in causation were: Prolonged Stress 30 per cent., Senility 11·8 per cent., and Heredity 10·2 per cent.

*The Discharges.*—Of the 277 patients discharged, 62 were discharged "recovered," 58 "relieved," 156 "not improved," and 1 "not insane." Included in the discharges are 30 London patients on termination of contract. The recovery rate on the direct admissions was 25·3 per cent., that for the men, 12·5 per cent., being in striking contrast to the 46·2 per cent. of the women. Both the recovery and the death-rates are affected unfavourably by the admission of Ewell patients. It should be noted that were the admissions from Ewell, who really should not fairly be included under direct admissions, to be excluded the recovery rate would be 35 per cent.

Money allowances were granted to 16·1 per cent. of the patients discharged recovered, and I desire here to place on record the fact that in no instance have the Committee ever refused help to any patient in need of it.

*The Deaths.*—There were 68 deaths during the year. The death-rate on the average number resident was 7·26 (male 10·38 per cent., female 5·08 per cent.), as against 8·22 last year. The percentage of deaths on the male side, excluding the Ewell patients who died during the year, would be 7·5 instead of 10·38 and the total percentage 6·09. The chief causes of death were Senile Decay 19·1 per cent. and General Paralysis 16·1 per cent. Pulmonary Tuberculosis was responsible for 8·8 per cent. of the deaths, but it is satisfactory to note that only one patient died from Dysentery. Post-mortem examinations were carried out in 56 per cent. of the deaths, and in 87·5 per cent. of the patients dying from Exhaustion from Mania or Melancholia, where the cause of death, it may be presumed, is not quite so obvious.

One Inquest was held during the year, in the case of E.W., a female patient, who died 10 days after admission from Exhaustion from Melancholia and Fatty Degeneration of the Heart.

*Escapes and Accidents.* — Six male and four female patients escaped during the year. All were re-taken with the exception of one female, who was not captured within the statutory 14 days and was therefore discharged.

There were only two accidents, A.H., a female patient, sustaining a dislocation of the left radius at the elbow, and F.F., also a female patient, a fracture of the bones of the left forearm. Both these accidents were fully reported to you at the time of their occurrence.

*Visits.*—Two Commissioners of the Board of Control visited the Hospital on November 27th and 28th. Dr. E. Prideaux, Headquarters Inspector, Ministry of Pensions, visited the Service patients on February 8th. Deputations from the Brighton, Croydon, Epsom, Godstone, Kingston, Lewisham and Reigate Guardians visited their respective patients during the year.

*Staff Changes.*—Miss G. Boyles, Assistant Matron, resigned to be married on June 28th. Miss Christina MacRae, doubly trained at the Aberdeen Royal Infirmary and Crichton Royal Institution, was appointed to succeed her on July 20th. I regret to report the death of Attendant J. Moon on November 14th.

The conduct of the Staff was good. The Nursing Certificate of the Medico-Psychological Association was obtained by 10 members of the Nursing Staff and 13 passed the Preliminary Examination.

*Works Department.*—List of works carried out by Hospital Staff during the year ended December 31st, 1923:—

Tar-spraying and repair of Estate roads and paths.
Outside painting of Main Hospital Buildings.
Several Wards equipped with Radiator Guards.
Gas service laid on to old cottages.
Wash-house erected at Netherne Farm Cottage.
Cattle Shelter erected in meadow.
Two large Weir Feed Pumps erected in hot well.
Recreation Hall Band Well enlarged.
Baize Curtains fixed to Recreation Hall windows.
Male Ward 7 Airing Court paths tar-slagged.
Baths supplied and fixed in seven old cottages.
Grassphalte Tennis Court made.
Implement Shed erected at Woodplace Farm.
Iron partition fixed in wood-chopping shed.
Radiant heat bed completed.
Wire netting erected round Tennis Court.
New feed water pipes fitted to Lancashire boilers.

*General.*—The health of the patients was good, and the Hospital was free from epidemics with the exception of some cases of Influenza.

The Annual Fête was held on July 19th. The female patients had two excursions to Brighton which they thoroughly enjoyed.

The reception of private patients, from its institution in 1910, continues, and the principle of receiving paying patients, originally adopted to meet a long-felt want in Surrey for a hospital where persons, unable to pay the high fees of private establishments, could be received at a moderate charge, has been more than justified by results.

It is once more my pleasing duty to thank my Medical Colleagues, the Clerk and Steward and other Officers and the Staff for their loyal and willing help, and to express my indebtedness to the Visiting Committee for their continued confidence, consideration and support.

I have the honour to be,

Your most obedient Servant,

P. C. COOMBES,

*Medical Superintendent.*

## CHAPLAIN'S REPORT FOR 1923.

---

*To the Chairman and Committee of the*
*Surrey County Mental Hospital, Netherne.*

GENTLEMEN,

I have the honour to submit to you my Report for 1923. During the early part of the year I had the assistance of the Rev. W. G. Booth, but he had to leave Coulsdon before Easter. During the Summer I carried on the work with some difficulty by securing occasional help from outside, but since September I have been able to devote my whole time to Netherne as I decided to resign the Vicarage of St. Andrew's. There is so much that ought to be done both in the Hospital and in the Village that only a full-time Chaplain can carry out the duties properly.

All the Services have been held regularly. The daily prayers at 8.45 and the Sunday Services at 10.30 and 4. There have been Celebrations of the Holy Communion monthly for the patients, and also on the great festivals and in the Infirmary Wards when possible. There have also been Celebrations at 8 on Sundays for the Staff and those living in the Village. The different Wards have been visited regularly—this is always one of the most interesting of my duties.

There have been 23 burials in the Hospital Cemetery—all but one being those of Church of England patients.

In Lent I prepared and presented six candidates for Confirmation, and I am now preparing nine more for presentation next month.

The Library is now well stocked with books—there are almost 600 bound volumes and 400 paper-bound books. I have had many generous gifts to the Library from the Imperial Book Club Library and the Red Cross Book Distributing Committee. The Library is most acceptable to both patients and Staff.

I am, Gentlemen,

Yours obediently,

J. G. MARSHALL.

## ROMAN CATHOLIC CHAPLAIN'S REPORT FOR 1923.

*To the Chairman and Committee of the*
*Surrey County Mental Hospital, Netherne.*

GENTLEMEN,

I have the honour to submit an account of the services for the R.C. patients and Staff during the year 1923.

Mass was said on every Wednesday morning, and the attendance, considering the small number of R.C. patients in the Hospital, was quite satisfactory. On several other occasions a Sunday afternoon Service was held, but this was by no means so well attended. A great deal depends upon the energy of the Attendant in charge of the Service. I am glad to say that on Wednesday mornings the people are well looked after and brought to the Hall for the Service. The aggregate attendance for the year was 1,028, which is not so good as the previous year.

Yours very respectfully,

WILLIAM EVANS.

# APPENDIX V.

## REPORT OF TWO COMMISSIONERS OF THE BOARD OF CONTROL.

SURREY COUNTY MENTAL HOSPITAL,
NETHERNE.
*November 28th*, 1923.

We have this day completed the annual visit on behalf of our Board to this Institution which we commenced yesterday. In Dr. Coombes' absence yesterday we received every assistance from his Deputy, Dr. Webber, and this morning we have had the advantage of seeing Dr. Coombes and discussing several matters with him.

Since our colleagues' visit thirteen months ago the following numerical changes have taken place:—

| | *Males.* | *Females.* | *Total.* |
|---|---|---|---|
| Admitted ... ... ... ... | 248 | 135 | 383 |
| Discharged ... ... ... ... | 116 | 89 | 205 |
| Of whom had recovered ... ... | 18 | 46 | 64 |
| Transferred to other care ... ... | 79 | 10 | 89 |
| Allowed out on trial ... ... | 22 | 47 | 69 |
| Died ... ..... ... ... | 42 | 35 | 77 |

In the above numbers of male patients who were admitted and discharged are 69 ex-service men from the Ewell Neurological Hospital, who being admitted as rate-aided patients were transferred to the private class, and appear among those discharged, and again among those as admitted. Of the total number discharged 15 men and 34 women were discharged to the care of their friends or relatives under the provisions of S.S. 72 or 79 of the Lunacy Act. Among the numbers transferred to other care are included 26 London County male patients transferred to the Worcester County Mental Hospital at Powick, on the termination of the contract, and 36 "Service" patients to other institutions.

The above changes leave on the statutory books the names of 951 patients in the proportion of 397 males to 554 females; of these 103 men and 62 women are classified as private patients, 74 of the former being of the "Service" class. Out-county patients number 28 males and 46 females, 13 of the former and 33 of the latter sex

being received under contracts with the Counties of Middlesex and Suffolk and the Borough of Brighton. The remaining 28 out-county patients belong to as many as 23 various Unions.

Three men and four women are now out on trial. We notice that of the 69 patients who have been out on trial during the period under review only 13 or 18 per cent. were granted money allowances. We hope that the Committee will use their powers under S. 55 of the Lunacy Act generously in this respect, as relief from financial anxiety on first return home does much towards convalescence.

There are now in residence 394 males and 550 women; all of whom have been to the best of our belief seen by us and given an opportunity of stating any grievance to us.

The average number of patients resident during the year ended 31st December last was 388 men and 548 women.

According to the return of accommodation made to our Board, which is for 382 male patients, and 570 female patients, there is overcrowding on the male side to the extent of 15 patients, while on the female side there are but 16 vacancies.

The weekly maintenance rate has been reduced for the Home patients from 21s. to 18s. 1d. That for the Brighton Borough patients (all boys) is for 31s. 6d., and for the Middlesex patients is 28s. The charge for private patients is now from 35s. to 63s. per week.

We found the patients of both sexes very quiet and orderly in their behaviour, and entirely free from any complaints on the grounds of harshness or unkindness on the part of the Nursing Staff. They were tidy and clean in their personal appearance and clothing; and we were glad to notice a variety of cut and style among the dresses of the women, and that many of them are allowed to wear their own clothes.

The beds and bedding were clean and sufficient, and were very neatly arranged so as to show the number of each article at a glance.

The fabric of the institution both inside and out is maintained in first-rate order. Generally there is a good supply of plants and flowers in the wards, and objects to interest the patients, but we should like to see in the ground floor dormitory of the Admission Hospital on the female side some plants and pictures, as it is so important to make this ward especially as attractive in appearance as possible.

There appeared throughout the wards to be a great dearth of books and bound periodicals, and we should like to see some cage birds distributed through the day rooms. On the male side among the ten wards there were but three billiard tables, and in one of the wards accommodating "Service" patients the lack of one of these tables, and of a piano, was especially mentioned to us by the patients.

The buildings were properly heated, but in the main wards there were no open fires, and one or two of these in some of the wards would have added to the comfort of the patients.

Since the last visit a Cinema Operating Room has been erected at the rear of the Recreation Hall, and cinema exhibitions are given once a week, in addition to one other associated entertainment.

In course of erection are twelve new cottages for the staff.

The death-rate continues to be satisfactorily low. During 1922 it was 8·2, 10·3 among the males and 6·7 among the women—figures which closely approximate to those for 1921.

All the 42 male and 35 female deaths—two of the latter being subjects of inquests—were from natural causes. While general paralysis was the cause in 26 per cent. of the male deaths, there was not a single fatality from it among the women, nor was there at the end of last year any such case in residence on the female side. Senile Decay was in 18 per cent. the cause of death.

Tuberculosis, fairly equally distributed as to sex, was the cause in 14 per cent. of the deaths. This proportion may indicate that this communicable disease prevails here to a greater extent than is safe to assume from the fact that at present its instances, so far as known, are limited to four cases, all patients, on the female side, and suggest—besides maintaining a watch on patients' weights and the introduction of plenty of fat into the dietary—the wisdom of an adequate physical examination of every patient at least once a year and the systematic examination of sputa; it and the fact that as many as 10 per cent. of the deaths are returned as from maniacal or melancholic exhaustion, strengthens our desire to see the proportion (54 per cent.) of the deaths verified by post-mortem examination considerably augmented. Apart from the medical information which these examinations furnish, they have a high protective influence, and we hope, in the case of relatives who object to these examinations, efforts will be made to point this out to them.

Casualties of at all a serious nature have been very few—two cases of dislocation and one of fracture, all these accidentally sustained. While their number, high or low, is doubtless often fortuitous, it is only fair to remember that many a casualty is saved by tact and watchfulness on the part of the nursing staff; they and the medical staff are also entitled to credit for the fact that among the 77 deaths there was only one bed-sore, and again only one among the 48 male and 61 female paients whom we saw in bed.

We found many other evidences, too, that the patients in bed (11·5 per cent. of the total in residence) are in receipt of careful and good care. We should have liked to see perhaps more charts in evidence, and we think that some additional bed-tables would be appreciated, including some small ones to serve as trays, and others on wheels long enough to span the bed. We also think that for the more aseptic keeping of surgical dressings, and the training of staff in these matters, the introduction of a good hospital trolley into each nursing dormitory would be an advantage. We noticed with satisfaction that of the 18 patients in bed in single room, not one (save in the case of the padded room) was without a bedstead, and we were told that by the use of low bedsteads when necessary the same applies throughout the hospital by night. Of the patients in bed, about 12 were under verandahs under which some additional 10 cases sleep at night, but on both days of our visit we could not help feeling that the use of the shutters in front of these excellent verandahs was not really necessary, and that, besides curtailing the open-air character of the verandahs, it darkened the adjoining room and interfered with its cross ventilation.

Among the medical resources of this Hospital, which are many, there is one important absence to which we desire to draw particular attention, namely, the fact that there is no Clinical Laboratory in which routine work as an aid to bedside examination, as well as in furtherance of post-mortem studies, can be carried on as part of the medical life of the institution—either by a member of the resident medical staff or by a visiting Pathologist, and the services of a technical assistant. We hope that favourable consideration will be given to this matter.

We saw a good and evidently appreciated dinner partaken of in the wards yesterday. Save that in some wards the second course was placed on the tables before the first had been finished, it was well and nicely served. Plates are warmed by hot water from the taps in the ward kitchen; here the provision some day of gas warmers

would be a boon. A hot roast pork dinner is only given to the private patients, and, knowing its popularity, we hope it may weekly or fortnightly, when in season, be extended to the others. By the introduction of porridge, dried fish, tinned and sausage meat, and jam or marmalade, any monotony in breakfast and teas has been much eliminated; but there is still one breakfast and four teas at which no addition to bread and margarine is made. We should like to see suet used where possible in lieu of margarine in the puddings; and the milk allowance in the patients' tea and cocoa increased, and some of the items in the staff dietary struck us as somewhat on a low scale.

The present nursing staff consists of the following:—

| | *Male.* | *Female.* | *Total.* |
|---|---|---|---|
| Charge ... ... ... ... | 10 | 13 | 23 |
| Ordinary ... ... ... | 43 | 59 | 102 |
| Night ... ... ... ... | 8 | 9 | 17 |

No female nurses are employed with the male patients, except in the North Villa, where are 25 idiot and imbecile boys.

Fifteen of the male and 23 of the female nurses possess the nursing certificates of the Medico-Psychological Association, whilst 16 other male and 15 other female nurses have passed the preliminary examination.

There is still no officer on duty by night here. We fully appreciate the inequality of the two sides as to numbers, and we should again strongly urge upon the Committee that favourable consideration should be given to the appointment of another Assistant Matron, trained in general as well as mental nursing, whose duty (perhaps in turn with the other Assistant Matrons) should be the supervision at night of both sides. Besides the protective value of such supervision she could train juniors in night nursing, and also might be a great relief to other officers at the important time of getting patients up in the morning.

Dr. Coombes has three resident medical colleagues to assist him. We record with satisfaction that the Committee have appointed a Dental Surgeon who visits regularly, and a Visiting Physician and Visiting Surgeon; the last two at present only visit when called in for consultation and operations.
